ABOUT US

Who We Are

Creating Possibilities Nepal (CP Nepal) is a non-profit working with children, youth and women across rural and semi-urban Nepal.

Through education, health, environmental and economic-empowerment programmes, we help marginalised families — especially girls, Janajati and Dalit communities — build dignified, self-reliant futures.

Our Mission

Bridge systemic gaps with community-led solutions that break the cycle of poverty.

Our Vision

A just, inclusive society where every child, youth and woman can learn and thrive.

Community Support

A network behind every student

In 2026, CP Nepal celebrated seven students who completed their university education across various subjects, each leaving the programme with strong life skills — another milestone of the year. HCC has funded this programme since 2006 and continues to stand behind these students. Founder Bruce's presence, alongside the CP Nepal Board and guests, made the celebration all the more special.

A Joyful Start for Every Child

During the past year, we supported ECD centers in government schools, helping young children develop language, confidence, and social skills through play-based learning.

To sustain these centers, we are encouraging School Management Committees, principals, and ECD teachers to raise funds locally for ECD management. These funds will support the maintenance of ECD centers and the replacement and updating of learning and teaching materials, and will reduce the dependency on donors.
